PROFESSIONAL SUMMARY

Recent Bachelor of Science in Information Technology graduate with hands-on experience developing web and desktop applications using PHP, JavaScript, Python, Visual Basic, and MySQL. Knowledgeable in responsive web design, REST API development, and database management through academic and personal projects. Familiar with using AI tools responsibly to support research, learning, debugging, and problem-solving. Detail-oriented and eager to grow as a software developer.

TECHNICAL SKILLS

Programming Languages: Python, PHP, JavaScript, Visual Basic

Frontend Development: HTML5, CSS3, Bootstrap, Responsive Web Design, DOM Manipulation

Backend Development: PHP OOP (Object-Oriented Programming), CRUD Operations, Authentication, Sessions, Prepared Statements, REST APIs, LocalStorage

Database Management: MySQL, phpMyAdmin

Tools: Git, GitHub, Visual Studio Code, Visual Studio 2022, XAMPP

Other Skills: Data Validation, AI-Assisted Research and Debugging

WORK EXPERIENCE

ALFC INSURANCE COMPANY | INFORMATION TECHNOLOGY INTERN | *October 2025 – March 2026*

- Assisted with database-related tasks and routine data management activities.
- Reviewed records to check data accuracy and consistency.
- Prepared reports based on collected and reviewed information.

PROJECTS

Job Application Tracker | HTML5, CSS3, JavaScript, PHP, MySQL, REST API | *2026*

- Developed a full-stack web application for managing job applications, including user registration, login, application tracking, editing, deletion, and status management.
- Built PHP/MySQL REST API endpoints supporting GET, POST, PUT, DELETE operations.
- Implemented session-based authentication, password hashing, prepared SQL statements, and user-specific data access.

Responsive E-Commerce Website | HTML5, CSS3, JavaScript, LocalStorage | *2026*

- Developed a responsive e-commerce website with interactive product browsing and shopping cart functionality.
- Implemented cart management with LocalStorage persistence, product detail modals, search suggestions, and filtering.

Sales and Inventory Management System | Visual Basic, MySQL | *2024 - 2026*

- Developed a desktop application with CRUD functionality for products, inventory, users, suppliers, categories, and transaction records.
- Created database-driven sales and inventory features with DataGridView interfaces for managing records.

EDUCATION

The Fisher Valley College | *Bachelor of Science in Information Technology* **|** *2022 - 2026*
